SOFTWARE DEVELOPER

I am a skilled web developer with a strong enthusiasm for web technologies. My expertise spans full-stack development, where I build both the frontend and backend of applications, ensuring a seamless user experience. I continuously stay updated with the latest industry trends and best practices, driven by a passion for creating efficient and scalable web solutions.

SKILLS

- DATA STRUCTURES & ALGORITHMS
- Node JS
- MongoDB
- React
- Docker
- Monorepo

- Tailwind and CSS
- JS and TS
- PostgreSQL and Prisma ORM
- AWS
- Next JS
- Recoil and Redux in React

EDUCATION

Indian Institute of Technology, Bhilai   JULY-MAY 2027
Bachelor of Technology | CSE

PROJECT

Medium Clone Project

- Backend:
  - Developed the backend of a Medium blogging clone project using Node.js.
  - Managed the database with PostgreSQL, utilizing Prisma ORM for efficient data handling.
  - Deployed the backend on Cloudflare, utilizing the Hono library for a serverless and scalable setup.
  - Ensured optimized performance and reliability for the application backend.
- Frontend:
  - Built the frontend of the application using React, focusing on a responsive and user-friendly interface.
  - Implemented modern UI/UX practices to enhance the user experience.
  - Ensured smooth integration between the frontend and backend for seamless data flow.

Basic PayTM

- Backend:
  - Developed with Node.js and MongoDB, including rollback functionality for transactions.
- Frontend:
  - Created with React for an interactive and responsive interface.
- Features: Replicates essential Paytm functionalities with enhanced transaction reliability

CERTIFICATIONS

- 0-100 Full Stack Web Development Course   ~100xdevs
- Master Linear Data Structures   ~codedamn
- Master Non Linear Data Structures   ~codedamn
- Mastering Algorithms   ~codedamn
